

After-School Science Enrichment Program

Mad Science activities are so fun that children forget they are learning! These recreational science programs are designed to help all kids learn to enjoy science. Mad Science after school enrichment topics are on a three-year rotation, so repeat students should not see a specific science class again for a long time.

Fall 2018: Super Science Sampler 5

During this science sampler, children will experiment with robots and robotics, learn about telecommunications, and discover alternate energy sources. Your Mad Scientist will feel the force of energy, the pull of gravity, and the might of motion in three exciting physics explorations. They will also explore the wonderful world of animals – above and below water. Fun take home projects include a robotic hand, a plaster cast of an animal track, a fiber optic map and a catapult.

Mad Science of the Mid-Hudson (845) 294-5434

Wednesdays at Putnam Valley Elementary school (*immediately after school*)

Time: 3:30 – 4:30 PM

Dates: October 3, 10, 17, 24, November 7, 14, 28, December 5

Grades: 1-5

Registration MUST be completed online @ midhudson.madscience.org

8- Week Program Cost: 128.00

Sponsored by Putnam Valley Parks and Rec.

Registration deadline is Sept. 28th.

(There is a \$10 late registration fee after the deadline.)

Program will run with a minimum of 10 and a maximum of 20 children per class.
