

# *PV Parks and Recreation*

## *Theatrical Workshop*

Bring your favorite stories to life:

In this program your student will experience a variety of theatrical skills while bringing their favorite stories to life. Each student will have the opportunity to create story through acting, costumes, and design. All ideas are accepted; all your student needs to bring to class is their imagination and their sense of play.

Students will create a show from a book of their ensemble's collective choices. We will have a performance at the conclusion of the workshop to show your students work.
